

0 IVI Tips - Chemistry (pure)

P1

→ do your TYS & highlight commonly repeated qns & go through them until you understand

OR just memorise that answer as the letters (A, B, C, D) may change but answer remains the same!

→ Get your basics right → commonly tested!

eg. Moles, organic chem, exp chem, chemical bonding, electrolysis

→ DO alot of MCQs! / don't just reread

P2

↑ important than other sch papers

→ Try to do other sch papers + TYS (yearly) ★

→ Mark + Understand Your mistakes

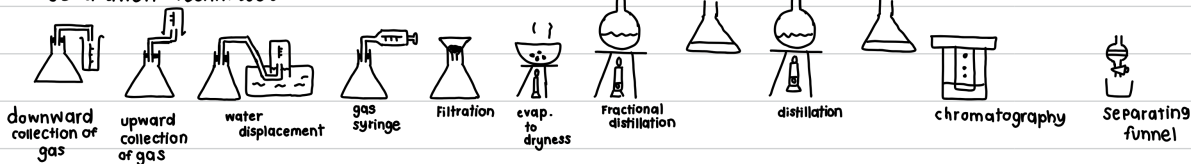

→ Ask Teacher for help if you don't understand as TYS answers are not the Best

→ Try to do concept maps - one qn can involve many topics ★

↳ Acid & Base + QA ...

P3

≥ Separation Techniques ≤

Other Tips!

Don't rush through your TYS!
Pace yourself 😊 → eg. finish other sch papers / past year
sec 4 papers first

→ then start on o lvl papers

↳ week 5 : 2 o lvl papers

week 6 : 2 o lvl papers

week 7 : 2 o lvl papers + actual o lvl

↳ Best to do 2 difficult o lvl papers like
2023 OR the recent ones like 2023+2024.

after all written papers → spam chem MCQs 😊
