READ THESE INSTRUCTIONS FIRST

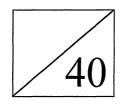

Write your index number and name in the spaces at the top of this page. Write in dark blue or black pen. Do not use staples, paper clips, glue or correction fluid. The use of an approved calculator is allowed.

Answer all questions on the question paper.

The businesses described in this question paper are entirely fictitious.

The number of marks is given in brackets [] at the end of each question or part question.

The total marks for this paper is 40.

1 The following information relates to Tasty Bakes as at 30 June 2022, 2023 and 2024.

(94)

| | 2022 | 2023 | 2024 |
|---|----------|----------|--------|
| | \$ | \$ | \$ |
| Equipment | 50 400 | 47 300 | 51 600 |
| Inventory | 17 800 | 21 300 | 30 900 |
| Trade receivables | 6 470 | 6 380 | 5 970 |
| Cash at bank | 13 400 | 9 600 | - |
| Prepaid rent | 3 400 | 3 210 | 4 530 |
| Current portion of long-term borrowings | - | 6 000 | 6 000 |
| Trade payables | 11 000 | 7 000 | 13 500 |
| Salaries payable | 1 900 | 2 350 | 2 180 |
| Bank overdraft | - | - | 2 500 |
| Working capital | \$28 170 | \$25 140 | ? |
| Current ratio | 3.18:1 | 2.64 : 1 | · ? |
| Quick ratio | 1.54 : 1 | 1.04 : 1 | ? |

REQUIRED

(a) Calculate the working capital, current ratio and quick ratio for the year ended 30 June 2024. Present your workings clearly. Show your answers to two decimal places, where applicable.

| (i) | Working capital | |
|-------|-----------------|--|
| (ii) | Current ratio | |
| (111) | Quick ratio | |

4 Amira Trading is a business selling washing machines. On 1 May 2024, the business had 30 units of inventory valued at \$15 000. The business uses the FIFO method to determine cost of sales.

During the month of May 2024, the following purchases took place.

2024

- May 3 40 units at \$24 000
 - 16 30 units at \$16 500
 - 18 10 units at \$5 500

On 20 May 2024, the business sold 70 units of inventory for \$50 000 to a customer, Gwen. Gwen paid the amount by bank transfer.

REQUIRED

(a) Calculate the cost of sales for the month of May 2024.

(b) Prepare the journal entries to record the transaction on 20 May 2024. A narration is not required. Journal

| | | |
| | | |
| | ,,,,,,, | |

On 31 May 2024, the batch of inventory which was bought on 18 May 2024 could only be sold for \$5 000 as a competitor had released a better product for a lower price.

REQUIRED

(c) Using a suitable accounting theory, explain how inventory should be valued.

(d) Prepare the journal entry to record the adjustment on 31 May 2024. A narration is not required.

2024 GMSS POA 4E5N Prelim Paper 1 Answers

507

| (i) | Working capital | 30900+5970+4530 - (6000+13500+2180+2500) |
|-------|-----------------|--|
| | | = \$17220 [1] |
| | | |
| | | |
| | | |
| (ii) | Current ratio | (30900+5970+4530) / (6000+13500+2180+2500) |
| (11) | Current ratio | |
| | | = 1.71 : 1 [1] |
| | | |
| | | |
| | | |
| | | |
| (iii) | Quick ratio | 5970 / (6000+13500+2180+2500) |
| | | = 0.25 : 1 [1] |
| | | |
| | | |
| | | |
| | | |

Q1b) [Any 5 + Conclusion]

- The working capital has worsened from \$28170 in 2022 to \$25140 in 2023 to \$17220 in 2024.
- The current ratio worsened from 3.18 in 2022 to 2.64 in 2023 to 1.71 in 2024.
- In 2024, the current ratio falls below the general benchmark of 2.
- This means that the business has insufficient current assets to settle its immediate debts in 2024.
- The quick ratio worsened from 1.54 in 2022 to 1.04 in 2023 to 0.25 in 2024.
- In 2024, the quick ratio falls below the general benchmark of 1.
- This means that the business has insufficient guick assets to settle its immediate debts in 2024.
- The decrease in the current ratio and quick ratio was largely due to the decline in cash at bank. Eventually, there was a bank overdraft of \$2500 in 2024.
- The decrease in the current ratio and quick ratio may be due to money being tied up in inventory and also money required to pay for high storage costs.

In conclusion, the business has worsened in its liquidity position over the three years.

Q1c) Any 2 ways

- · Obtain cash contribution from owner or shareholders.
- Obtain long-term loan.
- Sell excess non-current assets for cash.
- Reduce operating expenses.
- Negotiate for better/ longer credit terms with suppliers.

Q1d) Any 1 pair

- Bank overdraft happens when business withdraws more than its deposits in the bank account, up to an agreed limit while current portion of long-term borrowing is the portion of a loan which is repayable within one year.
- To reduce bank overdraft, business has to deposit cash into bank account within the year while to reduce long-term borrowing, business has to make regular payments over the loan period or one-time payment at end of loan period while

Q2a) Any 2

- Segregation of duties
- Custody over cash
- Authorisation

Q2b)

| | Cash at bank | account | | |
|--------|--------------------------|---------|---------|----------|
| Date | Particulars | Dr (\$) | Cr (\$) | Bal (\$) |
| 2024 | | | | |
| Feb 29 | Balance b/d | | | 7 320 Dr |

| Balance as per updated cash at bank account | 6 140 | - |

3a)

Rent income for year ended 30 April 2024

= Rent fee received in the previous year but rent services provided in this year

+ Rent fee received in this year

+ Rent services provided in this year but rent fee will be received in the next year

= 10490 [1] + 28500 [1] +1000 [1]

= \$39990

[Note: must be with the correct sign]

3b) (i) To reverse insurance services used in the previous year but insurance fee will be paid in this year. [1]

OR To reverse insurance expense owed in previous year and to be paid this year.

3b) (ii) To adjust insurance fee paid in advance in this year but insurance services will be used in next year. [1]

OR To adjust insurance expense paid in advance this year and to be used next year.

3c) (i) Profit will be understated by \$1280 [1] [Why? Since insurance expense will be overstated by \$1280.]

3c) (ii) Asset will be understated by \$1280. [1] [Why? Since prepaid insurance is not recorded.]

Equity will be understated by \$1280. [1] [Why? Since profit will be understated by \$1280.]

3d) According to the accrual basis of accounting theory [1], expenses must be recognized in the period the services have been **used**, regardless if they are **paid or not**. [1]

[Why? Since \$1280 of insurance services has not been used, it should be excluded from the calculation of the insurance expense for the year ended 30 April 2024.]

4a) Cost of sales (70 units sold) = \$15000 (30 units) [1] + \$24000 (40 units) [1] = \$39000

4b)

Journal

| Date | | Debit \$ | Credit \$ |
|----------------|----------------------|-------------|--------------|
| 2024 May 20 | Dr Cash at bank [1] | 50000 | |
| | Cr Sales revenue [1] | | 50000 |
| | Dr Cost of sales [1] | 39000 | |
| | Cr Inventory [1] | | 39000 |

4c) According to prudence theory, inventory must be valued at the lower of cost and net realizable value, to ensure that inventory is not overstated.

[Why? When the net realizable value falls below the cost, business must reduce the value of inventory and record the potential loss as an expense.] $D \sim \$$

(d) Impairment loss on investing Inventory 500

Data for Question 1

The following balances were extracted from the books of Kiki Pte Limited on 31 March 2024.

| | \$ |
|---|---------|
| Motor vehicle at cost | 150 000 |
| Machinery at cost | 80 000 |
| Accumulated depreciation | |
| Motor vehicle | 30 000 |
| Machinery | 15 600 |
| Sales revenue | 250 800 |
| Sales returns | 5 600 |
| Cost of sales | 90 400 |
| Rent expense | 65 000 |
| Wages and salaries expense | 58 000 |
| Discount allowed | 9 500 |
| Rent income | 20 500 |
| Trade receivables | 25 600 |
| Trade payables | 36 000 |
| Cash at bank (credit balance) | 3 200 |
| Allowance for impairment of trade receivables | 1 500 |
| Inventory | 28 500 |
| Bank loan, repayable in 2028 | 60 000 |
| Issued share capital, 50 000 ordinary shares | 50 000 |
| Retained earnings 1 April 2023 | 45 000 |

Additional information

- 1 Rent expense, \$4 000, were prepaid and wages and salaries expense, \$1 700, were owing.
- 2 Rent income, \$2 800, had not been received.
- 3 Motor vehicle is to be depreciated at 10% per annum using the reducing-balance method.

Machinery is to be depreciated at 12% per annum using the straight-line method, assuming a scrap value of \$15 000.

- 4 The allowance for impairment of trade receivables is to be maintained at 8% of trade receivables.
- 5 Net realizable value of inventory is \$27 000.
- 6 The company declared a dividend of \$0.06 per share. The dividend will be paid on 5 April 2024.

2 Sam is a sole trader. His business buys and sells goods on credit. The following information relates to Henry's account in Sam's books for the month of June 2024.

2024

| June 1 | Henry | owed Sam | n \$2 500. | |
|--------|-------|----------|------------|--|
| | | | | |

4 Henry paid a cheque of \$2 450 to settle the amount owed on 1 June 2024.

11 Sam sold goods to Henry at a list price of \$6 000 less 10% trade discount.

26 Henry returned some goods bought on 11 June at a list price of \$300.

REQUIRED

(a) Calculate the percentage of cash discount on 4 June 2024.

.

[1]

- (b) State the effect of cash discount allowed by Sam on the profit for the year ended 30 June 2024.

(c) State one reason why Sam offered Henry a trade discount on 11 June 2024.

......[1]

(d) Prepare Henry's account in Sam's books for the month of June 2024.

Q2(e)

| Rate of trade receivables turnover for | Rate of trade receivables turnover for |
|--|--|
| year ended 31 July 2023 | year ended 31 July 2024 |
| 200 000/ 0.5(80 000 + 50 000) | 310 000/ 0.5(50 000 + 90 000) |
| =200 000 / 65 000 | = 310 000 / 70 000 |
| = 3.08 times [1] | = 4.43 times [1] |

Q2(f)

¢

The rate of trade receivables turnover has improved from 3.08 times in 2023 to 4.43 times in 2024 [1].

This shows that the business has become more efficient in collecting payment from its credit customer over the past 2 years. [1]
