Resource 7 for Question 2**Abridged excerpt on life and future development of slums in Paris**

Life seems glum for slum residents in Paris. Those who live in the suburbs have no hope of employment due to racism and a lack of jobs. They spend their days taking drugs and avoiding arrest from cops. One resident said that *“there is nothing to do. You wake up looking for work, but there isn’t any.”*

Paris city officials have decided to locate new low-income buildings in a couple of the most affluent neighbourhoods. The move is part of a broader push by the city to create more affordable homes in the French capital’s wealthier neighbourhoods. In the past, low-income housing has largely been limited to the city’s poorer areas and the suburbs outside of Paris.
